

## **FACT SHEET: BYETTA**

BYETTA is an injectable prescription medicine that may improve blood sugar (glucose) control in adults with type 2 diabetes mellitus.

BYETTA was listed on the Pharmaceutical Benefits Scheme as of 1 August 2010.

Registrants requiring Needles for the use of BYETTA, will not be able purchase them via the NDSS. Needles and Syringes are supplied to Registrants via the NDSS for INSULIN delivery.

**Patients prescribed BYETTA should contact:  
Eli Lilly Customer Service on 02 9325 4590  
Between 8:00am and 3:00pm (Eastern Standard Daylight Savings Time)  
Monday to Friday for assistance with supply of needles for BYETTA.**

**Subject to availability, Eli Lilly will supply needles to these patients.  
*Eli Lilly reserves the right to revoke this offer at any time.***

**Patients must NOT be registered on the NDSS as INSULIN requiring if they are using BYETTA.**
